

Rockwood® Premier 9D Retaining Wall Block

ROCKWOOD®
Premier

Premier 9D represents a new generation of retaining walls based on extreme performance and superior efficiency. At 47 lbs., Premier 9D is the lightest weight retaining wall unit per sq. ft. in the industry and is one of the most cost effective systems available. Its seamless and linear appearance is an attractive solution for any type of challenging application, whether it's commercial, industrial or governmental.

Rockwood® Premier 9D Retaining Wall Block

Premier 9D's revolutionary block design makes it the most efficient 1 sq. ft. SRW block ever. At just 47 lbs., it beats all other block systems for freight efficiencies and ease of construction.

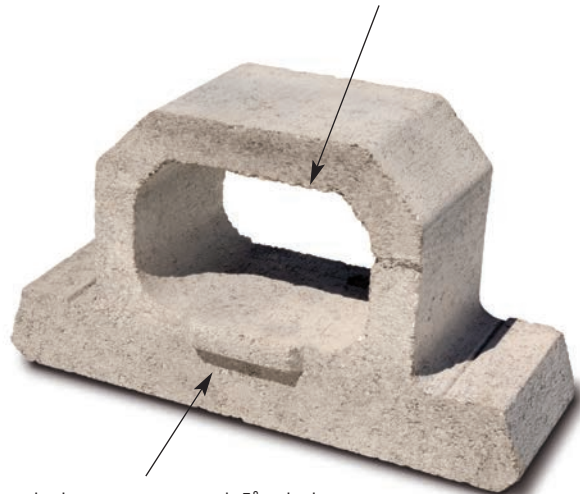

Features and specifications:

Dimensions: 18" W x 9" D x 8" H
Weight: 47 lbs.
Area: 1.0 sq. ft.
Setback: 1.0" (7°)

- Designed with Max Core™ Technology for connection strength and resistance to shear from continuous stone columns
- Lightweight for ease of handling, reducing fatigue
- Increased freight efficiencies
- Can be built to amazing heights with proper engineering
- Straight-split face or Colonial face options

Manufactured in accordance with ASTM C1372. Unit availability, color and specifications vary by manufacturer. Contact your nearest Rockwood manufacturer or dealer for more information.

Large, open cores fill quickly and easily with drainage material to form "stone-columns", adding support and stability to the wall.

Bottom, rear anchor bar creates an automatic 7° setback.
