Rockwood® Premier 6 Pro Retaining Wall Block

Premier 6 Pro offers a unique and patented, light-weight 3/4 sq. ft. block design and when combined with new Tri-Lock™ Technology it redefines the standard for installation efficiency and wall performance. Premier's 44 lb. unit weight reduces installer fatigue while delivering industry-leading strength, superior freight efficiencies, faster installation, and easier construction than traditional block systems.

Rockwood® Premier 6 Pro Retaining Wall Block

Pound for pound, Premier 6 Pro is unlike any other SRW block.

Premier 6 Pro's revolutionary block design makes it the most efficient 3/4 sq. ft. SRW block ever. At just 44 lbs., it beats all other block systems for freight efficiencies and ease of construction.

Features and Specifications

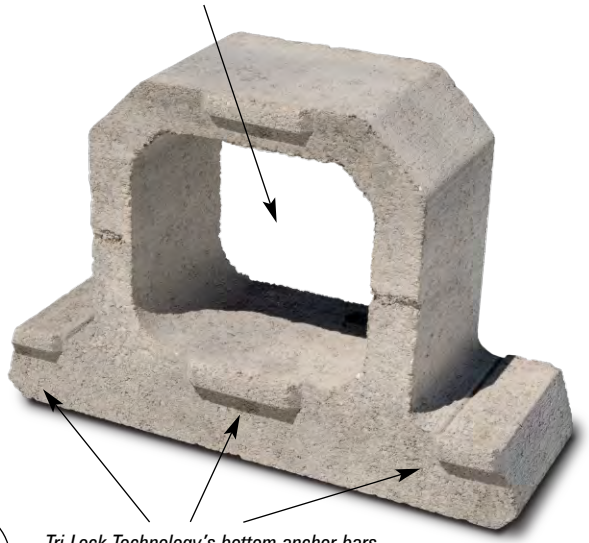

- Split-face, beveled sides
- Designed with Max-Core™ Technology creating continuous stone columns for impressive connection strength and resistance to shear
- Featuring Tri-Lock™ Technology for a strong, automatic 3/4" setback
- No cumbersome/expensive pins or clips
- Lightweight for ease of handling, reducing fatigue
- Increased freight efficiencies
- 30" max. gravity wall height, suitable for walls up to 10 ft. in height with proper engineering

Dimensions:	18" W x 12" D x 6" H
Weight:	44 lbs. (20 kg)
Area:	0.75 sq. ft.
Setback:	0.75" (7.1°)

PREMIER WALL SERIES from Rockwood Retaining Walls

Manufactured in accordance with ASTM C1372. Unit availability, color and specifications vary by manufacturer. Contact your nearest Rockwood manufacturer or dealer for more information. Nominal dimensions shown.

Max-Core Technology features large, open cores that backfill quickly and easily to form "stone-columns", adding support and stability to the wall.

NEW! Featuring Tri-Lock™ Technology

Tri-Lock Technology's bottom anchor bars create a strong block-to-block connection.
