Rockwood® Classic 8 Retaining Wall Block

Classic™ 8 is the high performance block preferred by architects, builders, developers, and engineers worldwide. It is known for its ease of installation, strength, and versatility. Whether the wall is supporting a retail development or backyard sanctuary, Classic walls are the best solution for any type of retaining wall application.

Rockwood® Classic 8 Retaining Wall Block

The Advantages of the Rockwood Classic® System...

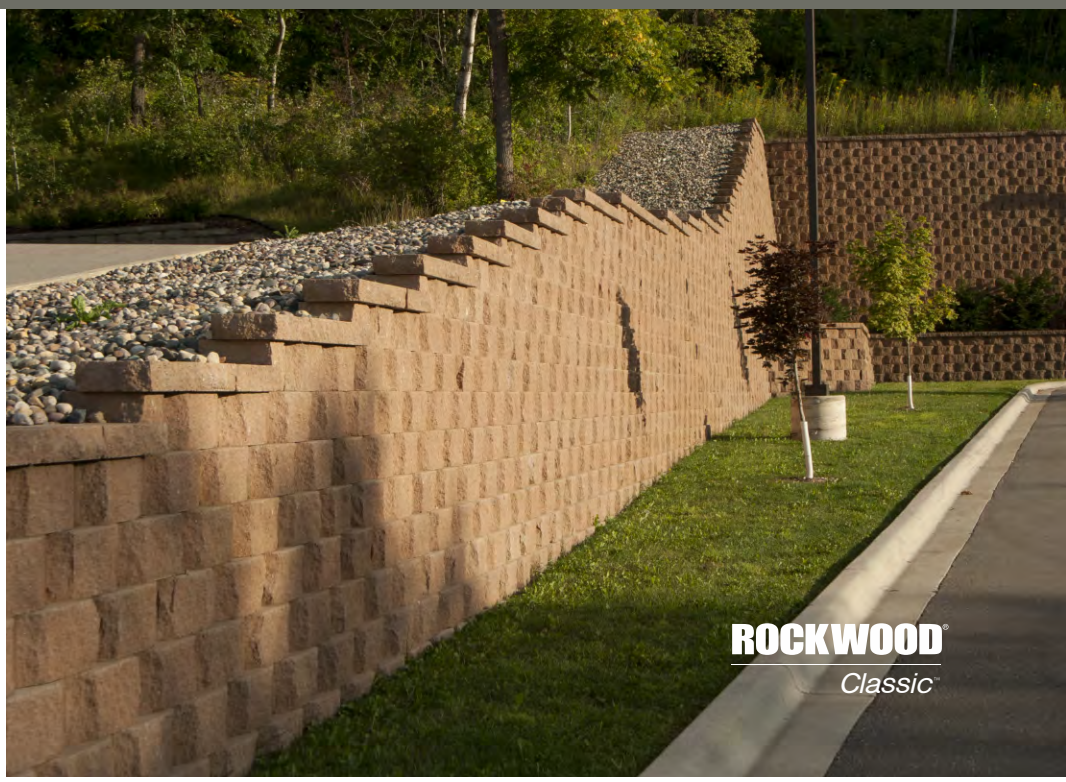

It's Fast...
Located on the underside of each Classic® block, the 4" x 2" Anchor Bar creates an automatic setback with the highest shear resistance in the industry. Plus, Classic's fewer pieces, pinless design, and lower weight per square foot reduces construction time, labor costs, and freight charges.

It's Simple...
"One Unit" construction is a vital element of Classic's superior design. 90° corners and half blocks are made simply by removing a portion of the block. No special blocks are required; no special inventories are needed; no shortages occur on the jobsite!

It's Strong...
Upon assembly, Classic blocks automatically create 4" x 5" vertical "stone columns". When layered with grid, the gravel filled "stone columns" provide a multi-point interlock, for a more uniform block-to-grid connection.

It's Versatile...
Variable setbacks, sharp radius turns, "One Unit" construction, and complete interchangeability are all features of Rockwood's Classic System. The ability to mix various sizes and colors within a wall enhances your imagination without sacrificing structural integrity. Plus, the Anchor Bar allows you to build at any setback you desire – from 0° to 14°, providing the only "true" vertical setback in the industry.

Manufactured in accordance with ASTM C1372. Unit availability, color and specifications vary by manufacturer. Contact your nearest Rockwood manufacturer or dealer for more information. Nominal dimensions shown.

Features and Specifications
- Split-face, beveled sides
- Easy-to-handle
- Anchor bar connection design, no cumbersome/expensive pins or clips
- Can be built to incredible heights, capable of tight radius turns
- Optional Rustic and Bevel-split faces

Dimensions:	8" H x 18" W x 12" D
Weight:	80 lbs. (36.3 kg)
Area:	1.0 sq. ft.
Setback:	Standard; 1.0" (7.1°) adjustable to near vertical

Straight-Split

Rustic Face

Bevel-Split
