# **Rockwood® Sapphire 6** Retaining Wall Blocks

Built as a garden terrace, raised patio, or retaining wall, Rockwood's **Sapphire**™ offers the ultimate combination of style and performance. Sapphire's unique core design makes it light-weight and easy to build. This 6" high block is the most practical landscape solution for retaining walls up to 4 feet in height. With it's universal appeal and impressive building capability, Sapphire can turn an ordinary yard into the ultimate landscape.

# Rockwood® Sapphire 6 Retaining Wall Blocks

## The Advantages of the Sapphire System...

**It's Fast...**
Sapphire™ is a mortarless and pinless wall system. A rear lip located on the under side of each Sapphire block ensures precise alignment and setback, eliminating guesswork and making installation easy.

**It's Simple...**
Weighing only 55 pounds, Sapphire 6 is as easy to handle as it is to install. Its size makes it perfect for any project including, but not limited to, terraced gardens, tree rings, and low retaining walls.

**It's Strong...**
Consisting of high quality concrete, Sapphire stands up to the elements. Plus, when filled with gravel, the cores make strong, vertical "stone columns" that create a maintenance free wall for years to come.

**It's Versatile...**
Sapphire's unique patented design makes it easy to create curves and shapes. Plus, the radius bottom eliminates the need for cleaning courses, saving time and hassle.

*Manufactured in accordance with ASTM C1372. Unit availability, color and specifications vary by manufacturer. Contact your nearest Rockwood manufacturer or dealer for more information. Nominal dimensions shown.*

**Features and Specifications**
- Straight-split, open-cores, rear-lip design
